The checkout process of default Magento annoys customers and takes a long time. One Step Checkout Extension for Magento 2 is an excellent solution to reduce your customer abandonment and increase conversions.

When you integrate One Step Checkout Extension for Magento 2 on your website, you see many benefits as below:

For Shop Owner: Reduce the required steps in the default checkout process from 6 steps into 1 step. All checkout information will be displayed on one page that makes your website become professional in customer's eyes. You will be amazed at the significant increase in your store's conversion rate after installing our One Step Checkout extension for Magento 2.

For Clients: They can see all available method payment and which method payment is suitable to them. Besides, they can edit product quantity or delete in checkout process without backing view cart page. This extension brings convenience and saves shopping time for your customer.

➤ System Requirements:

* **Operating System:**

- Linux as RedHat Enterprise Linux (RHEL), CentOS, Ubuntu, Debian, v..v
- Composer (the last version)
- Apache 2.2 or > Apache 2.2
- PHP 5.6.x; 5.5.x - where x is 22 or greater; 7.0.2, 7.0.6 up to but not including 7.1, except for 7.0.5

* **PHP extensions requirement:**

- PDO/MySQL
- Mbstring
- Mcrypt
- Mhash
- Simplexml
- Curl - gd2, ImageMagick 6.3.7 (or later) or both
- Soap

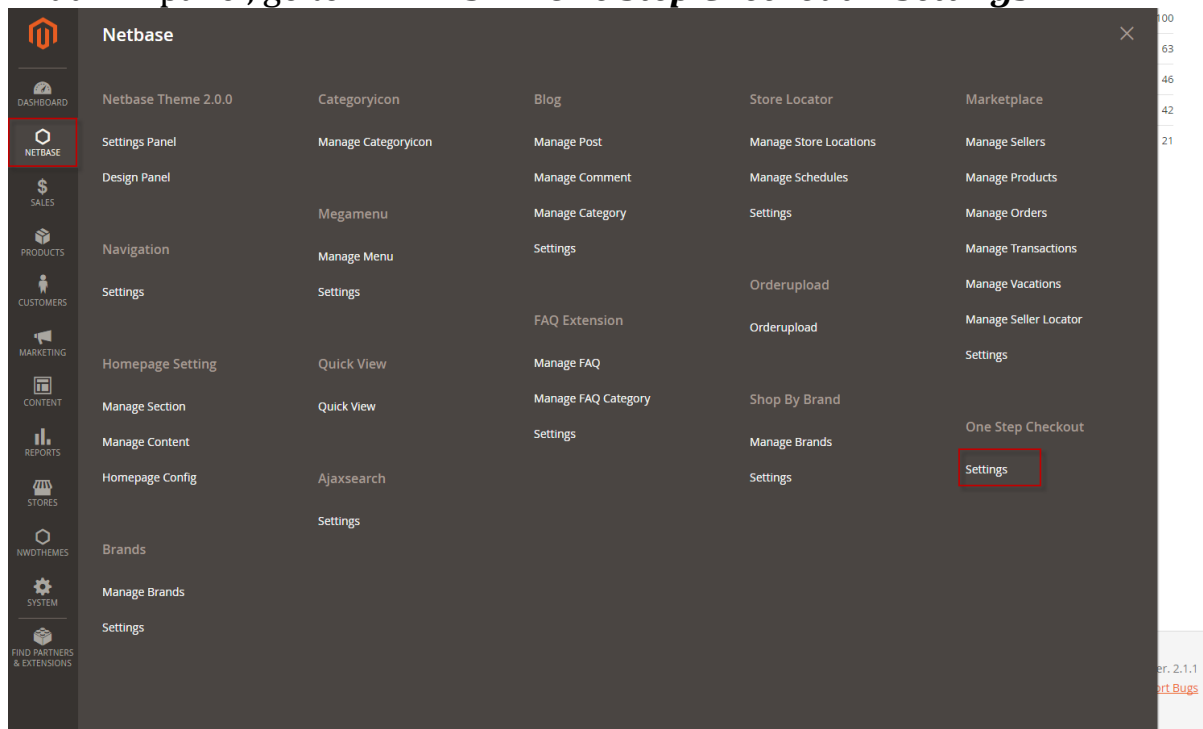

* **My SQL:**

- MySQL 5.6.x
- Mail Transfer Agent (MTA) or SMTP server
