You are a shop owner, you have a powerful website and a chain of offline stores but your customers hardly find your local stores, then you lose a huge of customers. **Store Locator Extension for Magento 2** is an effective solution that you must integrate into your site to resolve this problem. It shows all store locations, show each store's info including images, open/close time, store description... and allow your customer search for closest stores by distance, zip code, state etc.

➤ System Requirements:

* **Operating System:**

- Linux as RedHat Enterprise Linux (RHEL), CentOS, Ubuntu, Debian, v..v
- Composer (the last version)
- Apache 2.2 or > Apache 2.2
- PHP 5.6.x; 5.5.x - where x is 22 or greater; 7.0.2, 7.0.6 up to but not including 7.1, except for 7.0.5

* **PHP extensions requirement:**

- PDO/MySQL
- Mbstring
- Mcrypt
- Mhash
- Simplexml
- Curl - gd2, ImageMagick 6.3.7 (or later) or both
- Soap

* **My SQL:**

- MySQL 5.6.x
- Mail Transfer Agent (MTA) or SMTP server

2.How to use this extension?

➤ Configuration in back-end

- In admin panel, click on **NETBASE -> STORE LOCATOR -> Settings**

- + **Store Name:** fill in store location name.
- + **Identifier:** fill in identifier. Please enter a valid XML-identifier (Ex: something_1, block5, id-4).
- + **Status:** You can enable/disable the location display on the map.
- + **Select schedule:** select schedule for this store location. To create a schedule, you can view guide “Add New Schedule” below.”
- + **Store Link:** fill in store link for this location.
- + **Store Image:** Upload an image for each store that will be displayed on the frontend map.
- + **Store Order:** fill in sort order that is display in the store list in the left sidebar.
- + **Description:** Specify additional description for this store location.

-In tab **Contact Information:**

The screenshot shows the Magento Admin interface. On the left is a sidebar with navigation icons for Dashboard, Sales, Products, Customers, Store Locator (selected), Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area has a yellow header bar with 'System Messages: 1' and a search icon. Below this is the store name 'Northumberland Computer Store' and user information 'tuanhm'. A toolbar contains buttons: Back, Delete Locator, Reset, Save and Continue Edit, and a prominent orange 'Save Locator' button. The 'LOCATOR INFORMATION' section on the left lists 'Google Map Location', 'Store Information', and 'Contact Information' (which is selected). The 'Contact Information' form on the right includes fields for Email (tuanhm@gmail.com), Phone Number (01678596883), and Fax Number (123456567657). The footer contains copyright information for 2017, the Magento version (2.1.1), and a link to report bugs.

- + Fill in Email, Phone Number and Fax Number of this store location.

- **Step 3:** Remembering **Save Locator** after adding location.

✓ Delete Store Location

- In manage store locations page, you tick to select the store locations you want to delete -> select "Delete" in Action
